EXPERIENCE

AI Voice Engineer

Virtual (US-based)

TargetDial | AI voice automation & CRM for SMBs & real estate

Jan 2026 – Feb 2026

- Shipped production AI voice agents handling **500–600 calls/day** on SIP/Asterisk/FreePBX: inbound qualification, outbound follow-ups, live transfer, and CRM handoff.
- Built end-to-end workflows (voice → intent → CRM → calendar) with GoHighLevel, n8n, and self-hosted FreePBX routing from LiveKit/Retell.

Technical Lead, AI Infrastructure

Andhra Pradesh, India

Andhra Pradesh State Police

Sep 2025 – Present

- Building on-prem AI infrastructure: local model deployment pipelines, staff training on inference/monitoring, and agentic workflow loops with human-in-the-loop guardrails.

AI Engineer

Hyderabad, India

Indominus Labs | Enterprise AI & voice solutions (DirecTV et al.)

May 2025 – Present

- Pioneered SIP trunking to bridge LiveKit with legacy VICIDIAL via user/password auth when no integration path existed for dynamic LiveKit IPs.
- Engineered bare-metal GH200 pipeline processing **1M+** call logs: Whisper v3 transcription, PII sanitization, multi-agent performance analysis.

Founding AI Engineer

Virtual

Clink | Pre-seed cafe analytics startup

May 2025 – Present

- Built FastAPI backend orchestrating **8+ Pydantic AI agents** (analysis, chat, forecasting, image gen) for **80+ cafes**; PostgreSQL, Redis, S3, Logfire observability.
- Designed taste-based recommendation engine and customer intelligence (RFM, K-Means, churn) turning transaction data into targeted offers.

AI Engineer

Virtual

Stealth VC Project

Jun 2025 – Sep 2025

- Trained custom Hindi turn-detection model overcoming a core LiveKit SDK limitation; architected Asterisk middleware for multi-endpoint call routing (incl. WhatsApp).

SELECTED PROJECTS

sybl — BYOK voice dictation for Windows (PyPI v0.1.2)

Jun 2026

- asyncio*, *Deepgram*, *Groq*, *PySide6*, *Textual* — Solo-built asyncio daemon with streaming STT, global hotkeys, clipboard injection, Qt overlay, and Textual TUI; 230 tests, dual-OS CI, OIDC PyPI releases.

Kinesys-CRM — AI-powered CRM for B2B founders

Jan 2026

- FastAPI*, *Vue*, *WebSockets*, *LiveKit*, *OAuth* — LiveKit voice agents for inbound/outbound calls, real-time lead updates via WebSockets, and Google Calendar sync for founders managing 200–400 leads.

ACHIEVEMENTS

- Selected participant, Y Combinator Startup School (Bangalore, May 2026): back-to-back lab exams on the 17th, Startup School on the 18th, inaugurated Recon 2026 on the 19th.
- Event Director, Recon 2026 (VIT-AP flagship fest): **600+** participants, **21 lakh** sponsorship in under a month, 80-person team; built website and negotiated first private campus VLAN.
- Presented the VISU humanoid robot project to Chief Minister of AP, Mr. Chandrababu Naidu, at VLaunchPad.
- Winner, HackSRM 2024 (Open Innovation) for MemoryWeave; 3rd place Post-a-thon at VIT-AP, showcased IntelliPost to Union Minister Shri Chandra Sekhar Pemmasani.
- Delivered technical talks on agent architectures and LLM security to **100+ attendees** per session (Null Vijayawada, NIT Warangal, SRM University).
- Led the backend and on-site tech team for the AP CID home guard exams.
- Led multiple paper reading sessions on the architecture of the Pixy Discord bot and related AI systems.

TECHNICAL SKILLS

Languages: Python, Go, SQL, JavaScript/TypeScript, Java, C/C++

ML & AI: PyTorch, Transformers, RAG, LLMOps, Whisper, Computer Vision, NLP

Agents & Voice: Pydantic AI, LangChain/LangGraph, LiveKit, Retell, Deepgram, Groq

Backend & Telephony: FastAPI, WebRTC, WebSockets, Asterisk, FreePBX, SIP/VICIDIAL, RTP/NAT

Data & Infra: PostgreSQL, Redis, Docker, AWS, NGINX, Tailscale, n8n, Logfire, GoHighLevel
